Spend Analytics

glantus™

Glantus Spend Analytics delivers instant data you can trust for the procurement and AP departments. The insights maximize purchasing power, highlight supplier risk, provide cost optimization, and enable continuous improvement.

The Glantus Data Platform captures, transforms, cleanses, classifies, and manages the quality of your supplier master and transactional data. The data required can be streamed in batch or real-time from each of your business units giving a single view across all the organization.

Providing easy access to the key data across the procurement and AP functions, the solution seamlessly integrates with the necessary data points to provide the insights on spending, pricing, quality and other KPIs.

BENEFITS

- Consolidated real-time spend data across multiple systems and locations.

- Streamline decision making with complete and accurate data you can drill down into.

- Analyze all AP transactional history by category, vendor, buyer, or department.

- Detailed analysis of suppliers to minimize risk and highlight dependency.

- Trend spend by category over time to monitor behavior and track process improvements.

360-DEGREE VIEW OF ALL YOUR SPEND DATA - THAT YOU CAN TRUST

Glantus Spend Analytics allows your team to develop and run successful procurement strategies.

Continual monitoring and modeling of cost, pricing supply, and delivery can help the team by highlighting missed opportunities and improving negotiating positions with key suppliers.
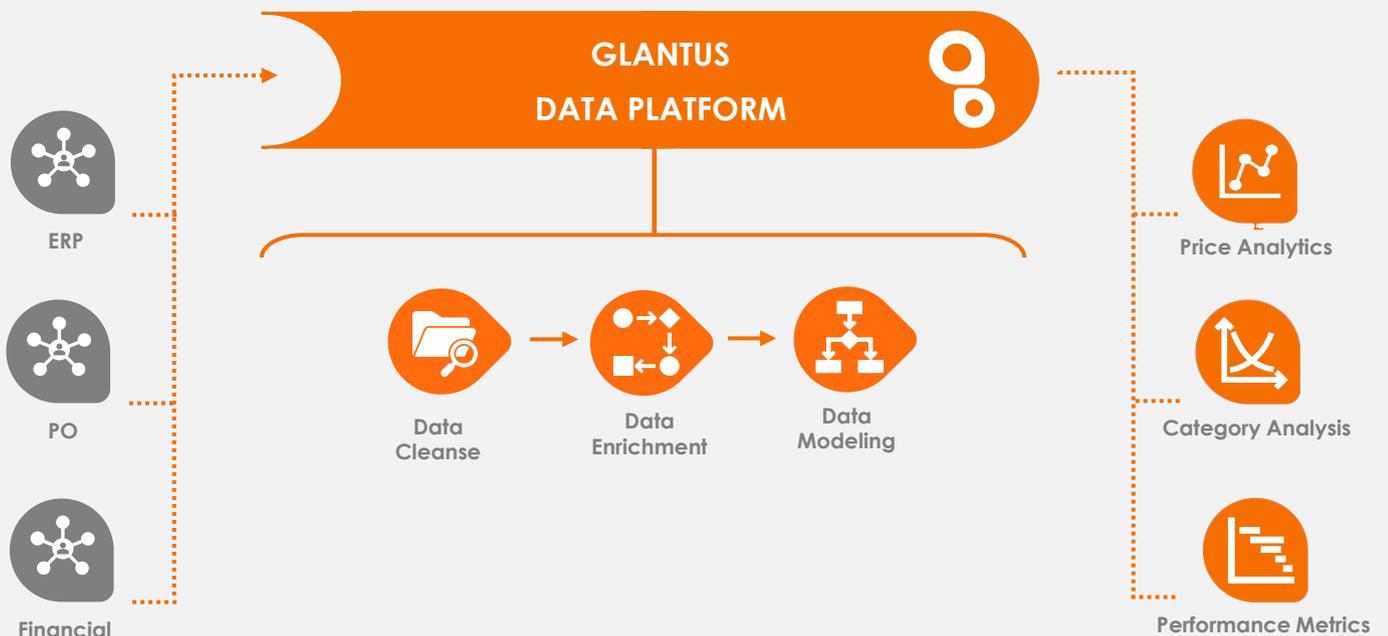

Quality issues can be monitored and acted upon as they arise which will improve service delivery internally and externally.

Accurate analysis greatly enhances forecasting which in turn drives faster decision making helping the enterprise save cost and stay competitive.
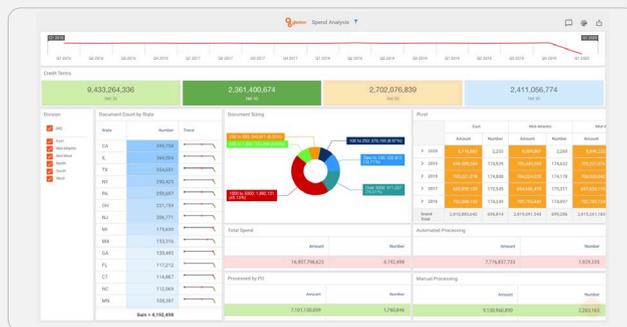

All analytics are provided using the Glantus intuitive visualisation toolset which includes dashboards, reports, and pivots. Each of these is simple to interact with giving maximum flexibility to the end-user.

The solution is layered over all your ERP and purchasing related data to achieve complete visibility of your spend.
