

## VENDOR MASTER ANALYSIS

Single source of truth, vendor master data view across multiple ERPs. Analyse vendor status, trending, aging, payment terms, duplicate suppliers, data quality, and other areas for improvement.

### BENEFITS

- Delivers detailed vendor master file reports, facilitating efficient data cleansing and maintenance.
- Visibility into entry errors and vendor compliance can prevent inefficiencies and higher costs.
- Identification of potential vendor duplicate records, subsequently correcting and reducing duplicate payments.
- Insights into the volume of aged, unused vendors and duplicate records increasing the risk of potential mispayments.
- Consolidated view of vendor master data across multiple ERPs, including status, trending, aging, and duplicate vendors.
- Single view of duplicates and inactive vendors when integrating multiple master files during organisational changes or acquisitions.

### PRIMARY FEATURES

**Advanced Analytics:** Vendor master reporting identifies potential duplicate records and provides a workflow to address them.

**Reduce Errors:** Identify numerous potential vendor master problems resulting from entry errors or a lack of adherence to established procedures.

**Flexible and Easy to Use:** User friendly interface with minimal training required to use. Highly configurable to ensure it works with your environment.

**Dashboards:** Visualise the volume of vendors added, identified as potential duplicates, aging, and more.

### ARE YOU FACING THESE CHALLENGES?

Being able to monitor and control vendor master entry errors that would otherwise go undetected and negatively impact other processes.

Vendor master databases are plagued with inconsistencies and data governance policies can be ineffective.

Increasing need to monitor and safeguard your vendor master data against fraudulent vendor activity.

Multiple ERPs and vendor data complexity.

### WHO BENEFITS?

- ✓ Accounts Payable
- ✓ Internal Audit
- ✓ Finance
- ✓ Procurement

### GLANTUS VALUE

1. Comprehensive Vendor Database
2. Single Source of Truth
3. Vendor Risk & Fraud Analysis
4. Global Enterprise Experience
